Return Postage Guaranteed

U.S. Dept. of Agriculture Washington 25, D.C.

Dear friends.

Have you ever seen the like of it? Sometimes we are tempted to line out for ourselves all the stock we propagate as the market for good finished material continues to grow stronger each succeeding year. Our A.A.N. "Plant America" program deserves much credit for this condition. Are you a member? In unity there is strength and security. Small business must organize to survive.

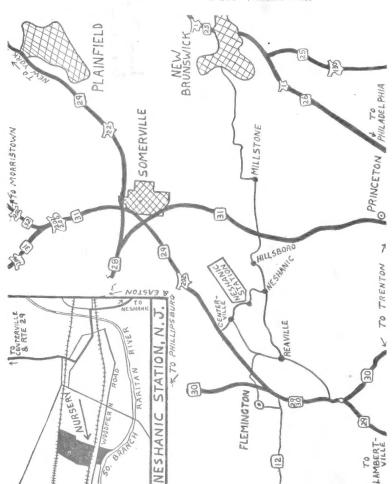

But finished stock is not our business. We grow liners and good ones for you to grow into dollars. Quality pays big dividends so benefit from our 30 years of experience. Give us your order and rest assured that you will be well satisfied.

Look over our Spring offerings on pages 8 to 12. Save 5% and packing charges, by placing or paying your order before Dec. 31st. It will be our pleasure to serve you.

Yours sincerely,

John Vermeulen

Pete Vermeulen

### **TERMS**

2% 10, net 30 for those with established credit. All others cash with order for which we pack free of charge or 50% cash with order and balance plus packing charges C.O.D. All shipments travel at the cost and risk of the purchaser. No claims after 10 days. Prices herein cancel those in all previous lists and are quoted to the trade only. 50 at 100 rate, 500 at 1000 rate.

#### TALL - NARROW - HARDY

#### SENTINALIS PILARIS PYRAMIDALS STRICTA

Developed to replace the difficult hibernica and for use where Juniper or Thuya are not adaptable or desired. Tested for hardiness, habit and appeal for many years. Available as liners for many years and now a limited quantity in finished sizes. each 1-4 each 5-10

\* B&B 24-30" 6.50 \* B&B 30-36" 7.50 \* B&B 36-42" 8.50

PYRAMIDALIS - Pyramid Yew. Fast growing with vertical branches and striking dark foliage. A rich, showy full bushed pyramid 6yr XXX 12-18" per 10 \$12.50 bushed pyramid

ROBUSTA - Obelisk Yew. Similar to pyramidals but with heavier branches and habit. Needles are larger and more glossy.

STRICTA - Narrowbush Yew. Short needles lend a compact effect. Vertical branches and narrow habit make a desirable plant.

VERIDIS - Grassgreen Yew. Year-around fresh green color. Strong sturdy growth of vertical branches in slender habit make it one of the best.

AZALEAS	(Cont'd.)
---------	-----------

GABLE HYBRIDS (Cont'd.)

10 100 1000

**SELECTION** - We have eight or ten other named or numbered varieties and will make up a selection of 5 each of 5 different varieties possibly containing some of the above. All labeled of course.

2\(\frac{4}{9}\) pot \quad \(7.50\) per 25

HINO-CRIMSON. Bright crimson-red kurume with non-fading characteristics. Will not fade in the brightest sun. Introduced by us in 1944 and now a favorite to take the place of hinodegiri for it is hardier and has better color appeal both in flower and its foliage which is glossy dark green. Profusion of flowers both outdoors and in forcing.

3" pot 4-6" .75 .60 ...

HINODEGIRI, bright crimson 21/4" pot .171/2 .14 3" pot .421/2 .35

**KAEMPFERI** - **Torch Azalea**. Time tested and acclaimed as the hardiest of the azaleas. The named hybrids result from crossing kaempferi with malvatica and give us a good range of form and color.

CARMEN, rose pink, bushy variety.

21/4" pot .20 .15 FEDORA, large deep rose pink 21/4" pot .20 .15 2¼" pot FLAME, fiery red  $.22\frac{1}{2}$ .171/2 MAROON, maroon 21/4" pot .221/2 21/4" pot  $.17\frac{1}{2}$ MARY, deep pink  $.22\frac{1}{2}$ 21/4" pot  $.22\frac{1}{2}$ MAUVE, deep mauve .171/2

LATE BLOOMING HYBRID, salmon-pink to salmonorange 21/4" pot .221/2 .171/2

LEDIFOLIA ALBA, pure white 2¼" pot .20 .15
MAXWELLI, carmine-red, bushy, late

2½" pot .20 .15 SHERWOOD CERISE 2½" pot .25 .20

VUYKIANA HYBRIDS. A new race of very large flowered hardy Japanese azaleas produced by crossing hardy malvatica hybrids with mollis. Prolific blooms, large and soft colored in May. Evergreen.
